

Tackling early school leaving Delft, March 11-14, 2013

*Inspector (quality management, human
resources, budgeting, legal supervision)*

Our institute is proud of...

1. Enabling adults to acquire qualifications later in life

Motivation:

- Economic requirement
- Second chance as one aspect of lifelong learning
- Integration – “Language and education = integration“

2. A good and trusting cooperation with the schools

Motivation:

- Resources need to be spent wisely
- Implementation of new and innovative concepts
- Bridging the gap (schools vs. Ministry of Education)

One challenge that we meet is...

- Reducing the number of drop-outs within our system of adult education.

Explanation:

- Students work and go to school *at the same time*
- Connection between economic boom and the number of students enrolled in schools for adults
- Budgeting schools will be based more and more on output
